WARRANT FOR ANNUAL TOWN MEETING

The State of New Hampshire

To the inhabitants of the Town of Wilton in the County of Hillsborough and the State of New Hampshire qualified to vote in town affairs:

You are hereby notified to appear at the Town Hall in said Wilton on Tuesday, the 10th day of March next, at nine o'clock in the forenoon to choose all necessary town officers, elect delegates to Constitutional Convention, vote on the sweepstakes, vote to continue and maintain its existing municipal court so long as its present judge remains in office as per Chapter 502 A:35 R.S.A. (polls will not close before six P. M.) and at 7:30 P. M. at the School Auditorium to act upon the following subjects:

1. To hear the reports of Town Officers, Agents, and Committees and pass any vote relating thereto.
2. To see if the Town will vote to authorize the Selectmen to borrow money in anticipation of taxes.
3. To see what action the Town will take in regard to real estate taken over by the Town for non-payment of taxes.
4. To see if the Town will vote to accept the budget as prepared by the Budget Committee or make any alterations relating thereto.
5. To see if the Town will authorize the Tax Collector to appoint a deputy or deputies, under the provisions of Chapter 41, Section 38, of the Revised Statutes Annotated of New Hampshire, or take any action relating thereto.

6. To see if the Town will vote to authorize the Tax Collector to charge an additional amount of twenty cents on each Poll Tax not paid by September first, for use of the Town as provided by statute.

7. To see if the Town will vote to purchase a Fire Truck at a cost not to exceed \$20,000.00, of which \$5000.00 will be paid by taxation and a sum not to exceed \$15,000.00 by the issuance of serial notes and bonds in accordance with the terms of Chapter 33, New Hampshire Revised Statutes Annotated and bonds to be obtained at such rates of interest and terms of payment thereof as may be in the best interest of the Town, or take any action relating thereto.

8. To see if the town will vote to adopt the revised rules and regulations drawn up by the Cemetery Committee concerning the sale of lots and use of Public Cemeteries in Wilton as set forth in the Town Report, or take any action relating thereto.

9. To see what action the Town will take in regard to the placement of a memorial in honor of the Korean Veterans, or take any action relating thereto.

10. To see if the Town will vote to convey to William H. Bassett the old road leading from Route 101 to Keyes Road.

11. To see if the Town will vote to raise and appropriate the sum of \$100.00 to defray the cost of Christmas lighting on Main Street for the ensuing year.

12. To see if the Town will vote to have an Old Home Day Celebration.

13. To see if the Town will vote to adopt the proposed changes and additions to the Building Code as brought up at the Public hearing of the Planning Committee, and printed in this report or take any other action relating thereto.

14. To see what action the Town will take in regard to improving the quality of water and/or improving the distribution and pressure to higher points of the Town of Wilton, and to authorize the Water Commissioners at their discretion to finance same by issuing serial notes or bonds at such rates of interest and terms of repayment as may be in the best interest of the District, or take any action relating thereto.

15. To see what action the Town will take regarding the election of the Board of Sewer Commissioners.

16. To see what sums of money the Town will raise to defray expenses for the ensuing year.

17. To transact any other business that may legally come before said meeting.

Given under our hands and seal this 21st day of February 1964.

RAYMOND F. BATCHELDER,
CHARLES O. McGETTIGAN, JR.,
JOHN W. COWIE,
Selectmen of Wilton, N. H.

WILTON HIGHWAY REPORT — 1963

Winter Maintenance for 1963 was again average, with only one major storm, on February 20, 1963, of about 15 inches. All others were from three to 10 inches, making a total of 78 inches during the year. Some small storms cost as much if not more than the larger ones, for they take as much if not more sand-salt. During the year we used 200 tons of salt and 400 yards of sand.

Summer Maintenance this past year was about average and consisted of road grading, cutting brush, graveling and general maintenance of village streets.

The T.R.A. money this past year was used for the building and asphaltting of the road and hill leading to the Joseph Keyes Farm in West Wilton, which has always been very costly to maintain as a gravel road. The balance of the money was used to asphalt the Marden Road, part of which was done the year before with a small distance left to be taken care of this year.

During the last of July and the first of August the resurfacing work was done. Roads done this year were the Old Reservoir Road, from Douglas Chapman's home to Route 31, 1.40 mile; McGettigan Road, 1.29 mile; Abbot Hill Acres Road, .25 mile; Dale Street, 1 mile; Tuttle Hill, .70 mile; at Gray's Corner, .35 mile; Wilton Center, 1.60 miles; Intervale Street, .10 mile; Keyes Road, .20 mile; for a total of 6.75 miles.

During the month of June the Stone Culvert Bridge on Lower Maple Street gave way under the town truck which was loaded with patch to fix the sidewalk there, and had to be replaced with new covering stones.

I am asking the town to replace the small dump truck which is four years old and has a total of 65,000 miles on it, which is a lot of mileage for a truck of that size, doing the type of work that is required of it. This truck has been very costly the past year, but I

feel that if it were turned in this year for a truck of similar size it would still have a good valuation and that a new truck would not cost more than \$3000.

I want to take this opportunity to thank my "Crew" and all the townspeople for their fine support and cooperation this past year, especially Marvin Cud-dihy who took charge of the Department for me while I was in the hospital last spring.

LAWRENCE A. GIBBONS,
Highway Agent.

**Rules and Regulations for Laurel Hill
including new additions, known as
Denny Section, South Yard and Vale End Cemeteries**

1. Price of Lots

- A. All lots will be sold subject to Perpetual Care.
- B. Price of ½ lot will be \$150.00.
- C. Price of full lot will be \$250.00.
- D. Any lot with three or less burials will be considered a ½ lot.
- E. Entire purchase price to be added to Cemetery Trust Funds and income therefrom to be used by the town for general development and care of cemeteries.

2. Monuments and Maintenance

No person shall make any alterations, erect any monuments, markers or plant shrubs without approval and consent of the Cemetery Committee.

3. Annual Care

A. Lots sold previously without perpetual care may continue to operate on an annual care basis, payment to accompany application for said care.

B. Present cost is \$3.00 a $1\frac{1}{2}$ lot and \$5.00 for a full lot. This price is subject to change as costs increase.

C. No grave will be opened in an existing lot unless all annual care bills are up to date.

4. Denny Section

A. Elevation of lots to be the same as that of surrounding lawns.

B. Burials to be made in vault (or some everlasting materials) or by cremation.

C. Markers and monuments shall be erected only Flush with Graded Lawns.

D. Planting of shrubs or trees only upon permission of the Cemetery Committee.

RICHARD R. TUTTLE, SR.
WILLIAM P. WHITING, SR.

REPORT OF AUDITORS

We have completed our audit of the accounts of the various town officers for the year ending December 31, 1963, and find them to be correct and in order with the exception of three missing auto permits, for which the value is unknown.

The records of the Tax Collector, Treasurer, Town Clerk, Trustees of the Trust Funds, Selectmen, Water Department, Wilton Public Library and Clerk of the Municipal Court were checked. The town officers' bonds were also examined and found to be in compliance with the law.

The uncollected accounts of the Tax Collector and the Water Department were verified by sending individual notices to each debtor, this being the usual accepted practice.

It is the opinion of the auditors that the payment for cemetery lots should be made directly to the Trustees of the Trust Funds. We also feel that a new bookkeeping system should become a reality within the next two years.

We wish to extend our thanks to the town officers for the cooperation received during the audit. Again our thanks go to Mrs. Elizabeth French for the help and assistance she so freely gives each year.

ROY E. CLAIRE,
STUART S. DRAPER,

Auditors.

Town of Wilton, New Hampshire

Receipts from the Thurston Williams Fund have been used to purchase scientific and technical books.

Five hundred dollars has been given to the library

by Mr. and Mrs. Charles H. Frye to be known as the Sally McClure Frye Fund. The receipts are to be used to purchase juvenile books.

The librarians have attended meetings in Marlboro, Concord, Durham, and Keene.

The library is in need of a recent set of encyclopedias.

We thank our good friends for the gifts of books and magazines.

Respectfully submitted,

MILDRED C. FRENCH,
Librarian

Received Mutual Aid from:

Milford	4
Lyndeboro	2

The Wilton Fire Department wishes to thank Mr. Elmer Draper and Stuart, of the Draper Fuel Co., for the use of one of their 1200 gallon oil tankers during the long dry spell we had last year. The tanker was loaded at all times and ready to go at any time it was needed.

Our fire loss for 1963 was about \$17,000. Insurance paid was \$14,350. We had two buildings that were a total loss, one has been rebuilt and the other one will be this spring. Both of these fires had been burning for sometime before they were reported.

We are asking for \$20,000 to replace the Ford pumper that is twenty-eight years old for a modern pumper and tanker.

I wish to thank the Police Department for their help.

I wish to thank Franklin Edwards and William Cleaves, the assistant chiefs, and members of the Wilton Fire Department for their cooperation this past year.

WILFRID B. BERUBE, Chief
FRANKLIN EDWARDS, Deputy
WILLIAM CLEAVES, Deputy

Report of the Forest Fire Warden and Your District Chief

During the past year New Hampshire faced the greatest forest fire threat to its woodlands in more than sixty years. The continued drought brought home to our citizens, as never before, the potential threat of destructive fires to their beautiful and valuable forests, homes and livelihood. In true American tradition of meeting a common threat by volunteer effort, this fire danger was minimized by active prevention, patrol and a relinquishing of personnel rights for the common good. It was the greatest demonstration of public cooperation ever experienced by those responsible for

local and state fire control. The ready forces of volunteer fire services kept the losses low. For their effort and public response the general fire service expresses its heartfelt thanks for a job well done.

Prevention however, is not just an activity for the bad fire years. It must be practiced until it becomes a part of our public conscience — a habit. Just plain carelessness with fire causes too many of our fires.

The following practices and suggestions will help:

1. Always have a permit for outdoor burning and burn within the terms of the permit and in a safe place. Burn late in the afternoon when the wind is down or on rainy or damp days. Check your fire and if winds develop extinguish it promptly.

2. Carry your rubbish to the public dump — it's safer. A neglected backyard incinerator causes many fires.

3. Never discard lighted cigarette or match. Make this a year round habit regardless of the safety of your surroundings.

4. Children caused fires are now a major concern. Keep matches away from them and teach them to respect fire and not make it a subject of play.

Let's all join with "Smokey the Bear" and "Keep New Hampshire Green" and growing in 1964.

REPORT OF WATER COMMISSIONERS

There was the usual maintenance expenses of replacing pipes due to their being filled with rust.

Samples of water have been sent to the State Health Department once a month and have been satisfactory.

Two main line extensions were made this year, 600 feet at Abbot Hill Acres serving five new homes at a cost of \$2891.35. Also an 80-ft. extension from the home of G. G. Draper, Jr. to Chester Thomas' cottage, at a cost of \$431.01.

The uncollected balance has been substantially reduced.

Invested funds are \$10,875.57 Amoskeag Savings Bank; \$10,828.56 at Manchester Savings Bank; \$10,000 at Indian Head Bank, and \$10,000 at Wilton National Bank.

LYNN W. POTTER,

WILTON YOUTH CENTER COMMITTEE REPORT

The recreational facilities at Goss Park accommodated some 4,800 persons this past season. A new chlorinating system was installed this spring and greatly improved the water conditions. With the new system it is possible to control the amount of chlorine that is required for the number of swimmers. This allows us to keep the water safe and bacteria free at all times.

The summer program was expanded to include a morning playground activity with arts and crafts which was very well attended. The coming season will be nine weeks instead of the usual eight.

The winter skating program was under the expert supervision of Miss Karen Lane again this year. The committee was pleased to sponsor the first Wilton Winter Carnival in many years.

During the Christmas vacation we presented a cartoon movie for the small fry and a record hop for the older children. In February, there was the annual benefit movie.

The Committee has plans for expanding the present building at Goss Park to house the arts and crafts program which was held out of door last year and also for added storage space. We look forward to another successful year under the leadership of Abigail Stanton, Pauline Chabot and Tony Boutin.

Respectfully submitted,
NANCY T. WHITING,
Chairman.

Article 1

PREAMBLE

The following code is proposed for adoption to promote the health, safety, morals, general welfare and civic rights of the inhabitants of the incorporated Town of Wilton, New Hampshire, by providing safety from fire, adequate areas between buildings to be erected, various rights of way, by preserving the rural charm now attached to our Town, the promotion of good civic design and arrangements, now therefore these articles are hereby enacted by the voters of the Town of Wilton, New Hampshire, in official Town Meeting convened.

Article II — Buildings

New building construction, the moving or major structural alterations to the outside of an existing building, or any part thereof, or any different use from which an existing building is now used; the placement of a trailer or mobile home, will require a permit from the Building Inspector.

A permit shall not be required for repairing any existing building where the purpose for which the building is used is not changed. A permit shall not be required for the construction of small camps for logging, hunting, maple sugar, fishing and like purposes which may not by their nature and use, conform to the requirements of this ordinance.

To protect the rights of all town property owners the Build-

ing Inspector reserves the right to deny a building permit for the erection for any building or group of buildings or the placement of trailers or mobilehomes which in his opinion, would be detrimental to, or lower the valuation of existing adjoining properties. This ordinance shall not at this time affect any existing buildings built or placed previous to this ordinance except that at such time as any new additions or structural changes thereto shall take place, a permit will be required.

A building under 500 square feet in area for a one story frame house will not be erected or remodeled for the primary purpose of a permanent living abode for a family of three or more persons.

A building of any size will not be erected for the purpose of a permanent living abode without fulfilling the following requirements:

(A) Proper siding (no tar paper exposed)

(B) Electric wiring shall conform to the National Board of Underwriters Electrical Code.

(C) Chimney Construction. No chimney shall be built, erected, or altered below the roof unless containing a tile or brick lining and with iron clean-out door at or near its base, and shall extend at least three feet above the roof. No chimney shall be built, erected, or altered below the roof having wood or other combustible materials within one inch of the chimney and no chimney shall have its base resting upon any floor or beam of combustible material.

(D) Smoke pipes. No smoke pipes shall be installed or erected so as to be within twelve inches of any combustible floor or ceiling, unless amply protected with non-combustible material. No smoke pipes shall be installed or erected which passes into or through partitions or walls of combustible material, except when guarded with a double collar of metal with air space of a least five inches of brick or other non-combustible material between the pipe and the combustible material.

*(E) For the erection of any new building or major structural alteration to any existing building working drawings of the elevation with dimensions, plus a drawing of the floor plan with dimensions shall be submitted to the Building Inspector as a part of the requirement for a building permit.

*(F) There will be a minimum charge of \$2.00 for any building permit not exceeding \$5,000. in total cost. Above \$5,000. there will be an additional charge of 50 cents per \$1,000.

Article III — Sanitation

(A) Cesspool, septic tank, or sewer disposal area shall hereinafter be constructed or maintained no less than 75 feet from the edge of a public water body or from a dwelling other than that to which it is appurtenant, or as required by the State Board of Health.

(B) Except for existing Town and private sewer systems, no waste waters or sewage shall hereinafter be permitted to run free into a public water body or be discharged in any way that may be offensive or detrimental to the health of others. All such waste shall be conveyed away underground through use of an accepted sanitary system or in such a way that it will not be offensive or detrimental to health.

(C) All sanitary systems shall hereinafter be constructed and maintained in accordance with standards set and enforced by the New Hampshire State Department of Health and by the New Hampshire Water Pollution Commission.

Article IV — Amendments

This Ordinance may be amended by a majority vote of any legal town meeting when such amendment is published in the warrant calling for the meeting, and when such amendment has received a public hearing, which hearing has been advertised and given a legal fifteen day notice.

Article V — Penalties

Any person violating any provision of this ordinance or failing or neglecting or refusing to obey any lawful order or direction of a person authorized to investigate and enforce the provisions of this ordinance, shall be guilty of a misdemeanor and shall be subject to a fine of not more than \$10.00 and each day's violation shall be a separate offense.

*** Article VI — Board of Appeals**

1. Creation and Appointment

(A) The establishment of a Board of Appeals is hereby authorized. The members of the Board shall be appointed by the Municipal Officers. They shall be residents of the Town of Wilton, and shall serve without compensation. In accordance with the laws of the State of New Hampshire, the following provisions shall apply:

(B) The Board of Appeals shall consist of five members. When the Board is first organized, one member shall be appointed to serve for one year, one for two years, one for three years, one for four years, and one for five years, and thereafter the appointing authority shall annually appoint one member

for a term of five years. Said members shall be removable by the appointing authority upon written charges, and after public hearing.

(C) A municipal officer shall not be a member or associate member of the Board of Appeals.

(D) When a member is unable to act because of interest, physical incapacity, or absence from the State, three members shall constitute a quorum.

(E) When there is a permanent vacancy, the Municipal Officers shall appoint a person to serve for the unexpired term.

(F) The Board of Appeals shall elect a chairman and secretary from its own membership.

2. Jurisdiction

(A) The Board of Appeals shall have the following powers and duties, to be exercised only upon written appeal by a party aggrieved by a decision of the Building Inspector:

(a) To determine whether the decisions of the Building Inspector are in conformity with the provisions of this Code, and to interpret the meaning of the Code in cases of uncertainty;

(b) To grant variances from the strict letter of the Code, in cases of practical difficulty or undue hardship, provided there is no substantial departure from the intent of the Code.

(c) To permit an exception to this Code only where the terms of the exception have been specifically set forth in this Code.

(B) The Board of Appeals shall have the power and duty to pass upon the issuing of certain permits, subject to such restrictions as the Board may impose, in accordance with the provisions of this Code.

3. Hearings

(A) For all appeals from decisions of the Building Inspector for consideration of applications for permits authorized by this Code, the Board of Appeals shall hold a hearing as prescribed herein. The Clerk shall cause to be published and posted a notice which shall indicate the property involved, the nature of the appeal, and the time and place of hearing.

(B) The Building Inspector, unless prevented by illness or absence from the State, shall attend all hearings and shall present to the Board of Appeals all plans, photographs or other factual material which is appropriate to an understanding of the appeal.

(C) The Board of Appeals shall not continue hearings to a future date except for good cause. Written notice of the de-

cision of the Board shall be sent to the appellant and the Building Inspector forthwith.

4. Appeal Procedure

(A) Any person or any municipal department aggrieved by a decision of the Building Inspector may appeal such decision to the Board of Appeals.

(B) Within 30 days of the date of the decision of the Building Inspector, the appeal shall be entered at the Office of the Clerk upon forms to be approved by the Board of Appeals. The Appellant shall set forth on said form the grounds of his appeal and shall refer to the specific provisions of the Code Articles involved. Following the receipt of any appeal the Clerk shall notify forthwith the Building Inspector and the Chairman of the Board of Appeals. The appeal shall be in order for hearing at the next meeting of the Board, following by at least seven days the publication and posting of the notice of appeal.

* Article II, Sections E, F, and Article VI, designated by asterisks, to be part of the building code if approved by vote at Town Meeting, March 10, 1964.

SYNOPSIS OF 1963 TOWN MEETING

The meeting was opened at the Town Hall at noon, and it was voted to close the polls at 6:30 P. M. A total of 329 ballots were cast, with the following results:

Selectman for Three Years:	
John W. Cowie	277
Town Treasurer:	
Samuel G. Proctor	301
Town Clerk:	
Kenneth R. Dunham	207
Highway Agent:	
Lawrence A. Gibbons	308
Water Commissioner:	
Charles O. McGettigan, Jr.	286
Trustee of Trust Funds, 3 years:	
John H. Hutchinson	299
Parks and Playgrounds Commissioner:	
Roland P. Brochu	287
Sewer Commissioner for 3 years:	
Norman Wells	20
Sewer Commissioner for 2 Years:	
John Shea	4
Guy Holt	4
Sewer Commissioner for 1 year:	
Earl Roy	3
Charles O. McGettigan, Jr.	3

There were many scattered votes for all officers especially for Sewer Commissioners.

Beano:	Yes 174	No 98
--------	---------	-------

The discussion of the articles in the warrant was held at the High School Auditorium, opening at 7:30 P. M. The following appointive officers were named: Stuart Draper, Auditor; Roy Smith, Trustee of the Gregg Free Library; Leroy V. Tuttle, surveyor of masonry, stone work and brick work; the old board, Cordors of Wood; the old board. Surveyors of Lumber.

Article 1: The reports of town officers, agents, and committees were accepted as printed in the Town Report, except the vital statistics.

Article 2: The Selectmen were authorized to borrow money in anticipation of taxes.

Article 3: The matter of real estate taken over by the town for nonpayment of taxes was left to the selectmen.

Article 4: Taken up with Article 13.

Article 5: The tax collector was authorized to appoint a deputy or deputies.

Article 6: The tax collector was authorized to charge an additional \$.20 on each Poll Tax not paid by September 1.

Article 7: The sum of \$8,000. was transferred from unincumbered surplus to the Capital Reserve Fund.

Article 8: It was voted to purchase a loader for the Highway Department at a cost not to exceed \$17,000, of which \$10,000 would be taken from the Capital Reserve Fund, \$1,000 as voted at the 1960 Town Meeting, and a sum not to exceed \$6,000 by the issuance of serial notes and bonds.

Article 9: Amendments were offered for the revised rules and regulations drawn up by the cemetery committee concerning the sale of lots and use of public cemeteries, but after lengthy discussion it was voted to table the matter for a year for further study, with the selectmen to appoint a committee of three to bring in a report at next year's meeting.

Article 10: It was voted to appoint a study committee of three to look into the matter of a memorial in honor of the Korean Veterans, with the same committee to work on plans for a memorial and the cemetery problems discussed under the previous article.

Article 11: The school district was given permission to use the town hall for school purposes.

Article 12: The installation of street lights in West Wilton was tabled.

Article 13: The budget was voted as follows:

WARRANT FOR ANNUAL SCHOOL MEETING

The State of New Hampshire

To the Inhabitants of the School district in the town of Wilton qualified to vote in district affairs:

You are hereby notified to meet at the High School Auditorium in said district on the 7th day of March 1964, at 7:30 o'clock in the afternoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state foundation aid fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

9. To see if the District will vote to form a cooperative school district (3 person) planning committee and to elect the members thereof or determine that they shall be appointed by the Moderator or take any action relating thereto.

10. To see if the District will raise and appropriate a sum not to exceed \$2,000. to meet the expenses of the cooperative school district planning committee, including school consultant services, or take any action relating thereto.

11. To see if the District will vote to raise and appropriate a sum of \$6265.00 for the formation of a class for intellectually retarded children which will include teacher's salary, Retirement and Social Security, heat, lights, custodial services and rental fee or take any action relating thereto.

12. To transact any other business that may legally come before the meeting.

Given under our hands at said Wilton this 13th day of February 1964.

NANCY T. WHITING,
EARL W. WATTS,
RAYMOND A. LaPONSIE,
School Board

A true copy of Warrant — Attest:

NANCY T. WHITING,
EARL W. WATTS,
RAYMOND A. LaPONSIE,
School Board

SUPERINDENT'S REPORT

To the School Board and citizens of Wilton, I respectfully submit my sixth annual report as your superintendent of schools.

Staff and Instruction

Six changes in staff were made when school opened this fall. Mr. Roger Demers of St. Anselm's College was hired to teach Latin. Miss Linda Felch, a graduate of Keene Teachers College, was hired to teach English. Mr. Richard Powers of Tufts and the University of Pennsylvania was hired as a Guidance Counselor and instructor in Biology. Mr. Paul Silva, a graduate of Keene Teachers College, was employed to fill the vacancy in the Shop Department. Miss Florence Wheeler, a graduate of Keene, Boston University and Calvin Coolidge College, was hired to teach Science at the junior high school level. Mr. David Paige of the University of New Hampshire was hired as Music Supervisor.

The rooms that were created from space within the Town Hall were put in use in the fall. A fifth and sixth grade classroom in the old Banquet Hall is being taught by Mrs. Frances Pellerin and the old Civil Defense Room was used for a sixth grade classroom taught by Mrs. Helen Witty. The use of these two classrooms created quite a few problems of organization and administration but as the year has passed, each of these problems has been faced as they have been met and solved. Teaching in the Town Hall has been trying, not because of the instructional situation, but because of the movement of children from the Town Hall to the elementary school at least twice each day. Funds are provided within the new budget for a teachers' aide whose job it will be to give assistance to the teachers and aid in the overall supervision of these

youngsters at the Town Hall in passing from one building to the other and also at the elementary school.

The two areas of instruction at the elementary level that were outlined in last year's report continue to be improved upon and expanded in this present year. Phonetic Keys to Reading approach is being used in one of the first grade rooms and all other elementary grades are using the Spalding System of reading, writing and spelling. It is expected that each year marked improvement will be seen in this important area through the use of these very sound reading systems.

In the area of mathematics, the modern approach is being taught at all grade levels in grades one through six and also in one section of grade seven. In one more year it is expected that the modern program will thread its way from grade one right through grade twelve. Right now the only weakness in this program is at the seventh and eighth grade level where the thread is almost severed. It is anticipated that this type of program will definitely upgrade the quality of instruction in this area and give youngsters insights and understandings that could never have been expected of these children in the past. In the future, it can be stated quite positively that slowly but very surely material is going to be pushed from upper grade levels to lower grade levels. More and more material which was once considered the exclusive province of high schools will be worked into eighth, seventh and sixth and even lower grades of our school system. Even now some children in our school system are carrying on math studies that were once the province of the first and second year of college.

There are at least six children in our elementary school who would profit very much from a program of instruction geared for the intellectually retarded child. There are many other youngsters who, though not in-

tellectually retarded in the State Department's classification system, would none the less profit very much from the more individualized type of instruction that can be provided in this class. These children have the right to an educational program that will best meet their particular needs. These children require an individualized type of instruction concentrating on simple intellectual skills in reading, writing and arithmetic. Statutes of the State of New Hampshire allow expenditures to be made in the setting up of an intellectually retarded class.

Everyone is aware of the fact that money spent for the education of these children at this time might very well prevent a far greater expenditure of town funds for adults who have no capabilities for satisfactorily taking care of themselves and becoming regularly employed. The small investment that is made in their education at this time would pay the community many times over for welfare funds that might not have to be expended in the future. It is appreciated by all that the instructional program in regular classrooms would be improved tremendously since these children require much help and teacher time. With these thoughts in mind, an article is inserted in the warrant to provide funds for the setting up of a class of this type in Wilton. There are so many questions about the financing of the class that this article calls for maximum expenditures for this type of a classroom set up. The total costs are estimated as follows:

\$5,365.00 for a teacher including Retirement and Social Security; \$250 for custodial services; \$100 for lights; \$200 for heat; \$350 for rental charges if this is necessary. Total \$6,265.00.

It is possible that youngsters from other towns who are intellectually retarded might want to participate in this class, in this case tuition charges up to \$450 to \$500 per pupil may be assessed towards these children.

The exact number of youngsters that might attend is questionable but all towns in the Supervisory Union have provided funds to support this type of instruction. In addition, the State of New Hampshire will reimburse Wilton for each intellectually retarded child who is participating in this class to the extent of approximately \$150. It can be seen, therefore, that this maximum cost could be reduced considerably by various situations.

Building and Grounds

It is expected that the enrollment at the junior-senior high school level next year will increase by about ten percent, taxing the limited facilities to the bursting point. This increase in enrollment requires additional chair and desk facilities for youngsters which are included within the budget. Much of the furniture in the high school is of a considerable age and does not present the best appearance. Funds are provided in the budget to re-cover these desk tops with a good appearing durable material. The regular maintenance program of the school will continue this year as it has in the past with the painting of approximately three classrooms.

Finances

There are several areas of increase in the budget which should be brought to the attention of citizens. In the area of Teachers' Salaries an increase of \$14,000 approximately is shown. This includes an amount for one additional teacher at a level that is not definitely determined as yet. Part of this increase is also brought about by budgeting a sum of money for a teachers' aide to assist the teachers who are working at the Town Hall and also an amount to provide for the continuation of the Art program, an item which was not budgeted for in the current year.

The second area of increase is in Transportation

which shows an increase of approximately \$1,500. This is due to an increased estimate for the basic bus transportation by the contracted carrier. The real increase is actually about \$1,000 more than this since some educational transportation costs have been moved to items No. 290 and No. 1075.

In the area of Custodian's Salary, the increase is due primarily to the adding of custodial services at the Town Hall. In No. 630, the increase is brought about by the need for additional maintenance supplies.

In Item No. 726 — Repairs to Equipment, the primary increase here is for the covering materials for the desk units in the school previously noted.

In Item No. 860 — Rental of Land and Buildings, an increase of \$2,000 is shown. This is the charge that has been assessed upon the school district by the selectmen for rental of the Town Hall facilities.

In Item No. 1267 — Equipment, there is an increase of about \$600. This amount is due to the purchasing of additional chair and desk units as previously noted.

Other increases and decreases in the budget result in a total amount required to meet the School Board's Budget of \$229,520.39, an increase of approximately \$20,000 over the total amount required for the operation of the schools during the present year.

The revenue of the district is estimated to be approximately the same as expected during the present year, namely \$36,500 which reduces the total amount to an assessed figure of approximately \$193,000.

Future Needs

The study committee which was formed during the last school year continued to operate this fall and is making investigations into the long term solution of Wilton's school space problems. It will be recalled that their immediate solution to the space problem was the improvement of the facilities at the Town Hall and the development of two classrooms.

The committee has further investigated in three directions. First, the possibility of going into an AREA arrangement with Milford was considered. This possibility was discarded because of the high additional (\$34,000 this year) costs that would be necessary, movement of all high school children out of the community and a shortcoming of having no voice in the operation of the high school. Second possibility considered was that of providing additional building space in Wilton fully supported by Wilton. The committee was not happy with this arrangement because of the limited enrollment which might well be involved. Minimal costs would be in the vicinity of \$38,000 above present costs. The third possibility that required much more study and consideration was the possibility of working with other towns in the area who were interested in cooperatively developing a school facility that would meet the needs of all of the communities. There would be additional costs here also but the larger enrollment and thus better instructional program would justify the increased expenditure. The Wilton School Board participated in several meetings at which board members from other towns who were interested in this kind of arrangement met. All were presented with facts and figures as to the costs and kind of school that might be available through such a cooperative effort. Consideration was even given to the hiring of a firm of school consultants who would survey the needs of all the towns in the area and make some recommendation as to the best educational solution for the children of each town.

Continuing this idea of working cooperatively with other communities, articles have been inserted in the warrants of interested communities to provide for a formal 3-person study committee as required by the new State Statutes. This committee would meet with other town committees which will be formed in other

communities and they then would cooperatively sit down and pursue the study of school problems in the area. The second article is in the warrant to provide \$2,000 of funds for the functioning of this studying committee. Two thousand dollars is requested to support this committee so that if the local cooperating committee feels that it is advisable to hire the services of a school consultant, funds will be available to support this study. This is a maximum amount that might be used by the committee. There are funds available from trusts within the State which might reduce the expenditures to a considerable degree. The passage of these two articles is vitally necessary if Wilton's educational needs are going to be intelligently and realistically investigated.

Conclusion

I want to thank all members of the elementary staff for their cooperation and understanding during this past year in view of the many problems that were created by having part of the elementary school in the Town Hall classrooms. The high school staff, under the leadership of Mr. Shaw, has worked this year with fewer educational problems than we have sometimes been faced with in the past. In spite of taxing loads, studies by the high school staff are being carried out to improve the instructional program in the areas of math, science and English.

The School Lunch staff is working in a very limited physical area that has sometimes been quite discouraging. In spite of these environmental difficulties, all agree that the lunches served are quite adequate and critical waiting time is minimal.

The two Mrs. Stevens, school secretary and school nurse, are carrying out their functions with exceptional sensitivity.

The meetings of the school study committee have

not been as numerous as in the past year but their approach to the solution of school problems has been with much understanding and intelligence.

Many individual pupil problems at the school have been solved by parents and teachers sitting down and fully talking over the matter thus satisfying both parties, and reaching a solution in the best interests of the individual child. Such cooperation by parents is sincerely appreciated.

It is appreciated by me and the teachers that our school is not perfect. We are aware of various and sundry shortcomings which are a part of almost any school system. It would be unusual if we could handle each day for six or seven hours, 550 youngsters, without having some misgivings about some of the things that might have taken place or might not have taken place in any one day. However, we do not let these minor shortcomings becloud the basic provisions for education which are being made, while yet trying to correct the minor errors. On almost every basis for comparison that we can find, we can honestly say that the instructional program with the limitations within which we are operating is more than satisfactory. In many cases levels are achieved which were felt to be the province of only a comparatively few schools in the state. Be assured that there is no feeling of complacency amongst the staff or myself, that each day we are striving to do a better job than what has been done the day before. We make mistakes . . . we are human, we try not to repeat the same mistakes. With the cooperation of all, we'll make fewer mistakes and do an even better job tomorrow than we did today.

Respectfully submitted,

KENNETH A. SARGENT,
Superintendent of Schools.

REPORT OF THE PRINCIPAL OF WILTON HIGH SCHOOL—'63-'64

It is again my pleasure to report to you as the principal of Wilton High School. This year has seen the addition of two programs which are of great importance to the students within the school . . . they are guidance and art.

Under the supervision of Mr. Richard M. Powers, the guidance program has rapidly taken shape, but more time is necessary to develop the program fully. Mr. Powers now spends half of the day in guidance work and the other half teaching three subjects. With 292 students in grades seven through twelve, time has proven to be very short; and with an expected increase (approximately 30 students) in enrollment, the problem of time will become even more acute next year.

At the present time the guidance program includes aiding students in choosing future careers, providing students with information about various institutions of higher learning, conferences with parents, providing male students with information about the Armed Forces and their military obligations, giving of standardized tests, analyzing test results and following through on information gained in testing, organizing group guidance sessions, and dealing with other aspects of guidance as various situations arise. In addition Mr. Powers is reviewing the testing program which is now in effect and will make proposals to improve the tools used to evaluate the students in Wilton High School.

Instituted at the same time with guidance was our art program. Although Mrs. Jane Wright of Milford was and is an extremely busy person, she agreed to teach art on the basis of two periods per week. The students were very responsive to the program, and art classes are much larger than they should be. However, the students are enthusiastic as is their instructor, and I hope this program can be expanded.

Although guidance and art have become a reality at Wilton High School, one program, physical education, has not been instituted as yet. Having taught physical education, I personally know of the values which can be gained by a properly organized program, and I sincerely believe that the students of the school would benefit greatly from a physical education program.

To initiate a program of physical education, additional funds would have to be supplied for a teacher and equipment. If a teacher were hired to teach physical education half a day and other subjects the rest of the day, the load on the guidance counselor could be reduced to give him more time for his work; and in this manner the students can benefit in two ways . . . more guidance services and an organized program of physical education.

As the guidance and art programs are new to the school, they are both being constantly reviewed and evaluated. However, other subject areas, although not new, are also being constantly evaluated. Recently, the Director of Mathematics from the State Department of Education visited Wilton upon request of Mrs. Enid Uhrich, our advanced math teacher, for the purpose of reviewing the advanced math program. Several further meetings are being planned by the school administration and mathematics department to discuss and develop the math program. Constant study of the math program is necessary to provide for the modern needs of pupils and to keep the program up to date.

In addition to math, the science program is being thoroughly studied, and the science teachers are in the process of formulating a continuous science program from grade seven through grade twelve. It is hoped that some meetings can be planned with science teachers in this area for the purpose of discussing the

science curricula and making suggestions to enrich the science program.

Being able to write effectively is a skill which is beneficial to every student and especially valuable to the college bound student who will be expected to do much formal composition work. The English department is primarily responsible for developing the writing skills of students; however, all other teachers are cooperating fully with the English department in connection with writing. As students are being required to do more formal writing, there will be more prepared to meet college requirements and/or will be able to express themselves more effectively in everyday life.

Another concern of faculty and students alike is the school library. Mrs. Ralph Dwire, who spends two periods each day in the library, has completed the difficult task of cataloging all the volumes in the library. The biggest problem in respect to the library is one of space, and a room which is the size of a normal classroom is needed for a school the size of Wilton. More volumes are being added each year to give students more reference material with which to work, and students can use the library during their study halls. However, because of limited space, only a dozen students at a time can be seated each period to study, and consequently, the library cannot be used to its full potential.

Although the school does lack some facilities, students are being given a good basic education as attested by its graduates. Thirty-one students graduated in 1963 with twenty-one or seventy-one per cent of those graduating going to four year colleges, nursing schools, and business schools. In the class of 1964 there will be thirty-one graduates who have planned to do the following:

Number	Plans	Percent (nearest tenths)
8	Four year college	26.8
3	Nurse's training	9.7
6	Business school	19.4
4	Technical school	13.9
1	Hairdressing school	3.2
1	Armed Forces	3.2
7	Employment	23.3

In analyzing the above chart, one can determine that 69.8 percent of this year's graduates are planning to further their education by at least two years. The needs of the other students, who are entering the service or seeking employment upon graduation, are being met through the commercial and general curricula. The commercial curriculum now includes a course in office practice and is designed to familiarize commercial students with basic requirements for office work. This is the first year office practice has been offered to our students and should be of great benefit to commercial students who will seek employment in offices upon graduation.

In conclusion, I wish to thank the Wilton School Board, Mr. Kenneth A. Sargent, the Superintendent of the Wilton schools, the faculty of Wilton High School, and the student body, for their cooperation and help during this school year. I do wish to express a special thank you to Mrs. Elna D. Stevens, the school secretary, for the many things she has done for me and the school. Her thorough knowledge of the school and her competence in the office have been major factors in the effective operation of the school.

Respectfully submitted,

CARL V. SHAW,
Principal.
